## KEY FEATURES

### PICTURE QUALITY

---

#### FULL HD 1080p

Experience a great picture with no compromises with Samsung 1080p full HD. With a resolution twice as high as standard HD TVs, you can catch all the details of your favorite films and games.

#### CLEAR MOTION RATE 240

View every detail of action packed movies and sports with Clear Motion Rate (CMR) 240, an excellent level of motion clarity. The Samsung CMR uses the frame refresh rate, image processor speed and backlight technology to measure fast action.

#### WIDE COLOR ENHANCER PLUS

With Wide Color Enhancer Plus, you'll witness a wider spectrum of colors on your screen, just like the director intended. You'll enjoy enriched colors while watching your favorite movies and shows, even older non-HD content.

#### ECO SENSOR

With Eco Sensor, your TV can intelligently adapt its picture according to the intensity of the light in the room. This technology measures the amount of existing light and automatically adjusts the brightness of the image on the TV.

### SMART TV

---

#### QUAD CORE PROCESSOR

Quad Core eliminates lag to give you a fluid browsing experience. It enables you to switch between apps, stream content and multi-task faster. This extra power also provides faster page refreshing.

#### SMART HUB

Enjoy everything you love in one place. The interface of the Smart TV Smart Hub organizes your entertainment and content into five panels. Effortlessly navigate through live TV, movies, streaming content, social networks, apps and more.

#### FULL WEB BROWSER

Browse the web on your Smart TV to find the latest content. Enjoy everything from online shopping, social media browsing, entertainment news and the latest YouTube hits. Catch up on the latest content, and then go back to watching TV.

#### DUAL SCREEN

Can't decide what to watch? No problem. Go split screen with Dual Screen and keep up with what's most important. You can follow fantasy scores while watching the big game live, or read Twitter posts while you watch the season finale.

#### S RECOMMENDATION

S Recommendation uses your preferences to find the movies and shows you'll enjoy. Just ask your TV things like "what action movies are on" or open the hub to browse suggestions. The more you use it, the more personalized it can become.

### SMART CONNECTIVITY

---

#### SCREEN MIRRORING

The screen mirroring feature allows you to mirror your phone or other compatible mobile devices' screen onto the TV's screen wirelessly. This feature allows you to use your big screen television instead of your devices' smaller screen for showing content, media playback, or other function.

#### SMART VIEW 2.0

Turn your phone, computer or tablet into a second TV with Smart View 2.0. Whatever is playing on your TV, Netflix, VOD or live TV is streamed to your mobile device as well. This lets you watch your favorite movies, shows and sports all around the house.

#### CONNECTSHARE™ MOVIE

Watch videos, play music or view photos from a USB connection with ConnectShare™ Movie. You don't need a PC or special equipment—just plug your USB directly into your Samsung TV's USB port and entertain family and friends.

### CONNECTIONS

---

#### HDMI® CONNECTIONS

HDMI® features a high quality single-cable digital audio/video interface for connecting the TV to a digital cable box, satellite box, DVD and Blu-ray Disc™ player, PC computers, PC portable devices, new generation tablets and devices featuring the HDMI® output. CEC capability permits the control of the TV and component from one remote control handset.

#### USB CONNECTIONS

Get complete access to all your stored audio files from any USB memory drive or external hard drive. This wide range of compatibility allows you to connect and share content via USB.

#### WI-FI BUILT IN
