

# Color Printer C88+

Documents | Photos

The high performance Epson<sup>®</sup> C88+ ink jet printer speeds through critical projects and reports, delivering amazing quality and durability with DURABrite<sup>®</sup> Ultra pigment ink. With this champion performer, you'll get sharp, vivid charts and text, as well as beautiful photos.

*Epson. The overwhelming brand of choice among professional photographers.*

# Powerful performance for all your printing projects.

## KEY FEATURES

- Races through everyday projects up to 23 ppm (black) and up to 14 ppm (color)\*
- Prints at up to 5760 x 1440 optimized dpi with ultra fine ink droplets (as small as 3 picoliters)
- Delivers smudge resistant documents and photos on plain and glossy photo paper using DURABrite Ultra pigment ink
- Includes convenient, individual ink cartridges so you can replace only the color that you need
- Offers BorderFree® photo printing in frame-ready sizes (4x6, 5x7, 8x10, 8.5x11)
- Includes easy-to-use photo editing software to create calendars, photo books and more
- Works with both Windows® and Macintosh® systems via its USB and parallel ports
- Networking options available

## TECHNOLOGY OVERVIEW

### DURABrite Ultra pigment ink

The Epson C88+ uses DURABrite Ultra ink, a revolutionary, pigment-based ink that delivers superior image quality for all kinds of projects.

### Beautiful

With revolutionary DURABrite Ultra ink, users can achieve remarkable results on glossy photo paper, matte paper and even plain copy paper. With such exceptional quality and versatility, DURABrite Ultra ink offers the ideal solution for nearly any printing project, from high quality enlargements to everyday text and graphics. Double-sided prints look great because the ink will not bleed through. And, when you use Epson Premium Presentation Paper Double-sided Matte, you can make your own professional-looking brochures.

### Durable

**Smudge resistant.** Like all Epson ink, DURABrite Ultra features a quick-drying formula that enables you to touch documents and photos right after printing — without any messy smudging. With worry-free handling, you can share prints immediately, unlike those printed with some competitive inks that smudge easily and take several minutes to dry.

Competitor's smudged print

DURABrite Ultra print

**Fade resistant.** The special formulation of DURABrite Ultra ink also offers fade resistant properties that exceed those of photo lab prints, as well as those printed on many competitive products. In fact, with this remarkable ink, photos can resist fading up to 100 years!\*\*\*

Competitor's faded print

DURABrite Ultra print

**Water resistant.** Your prints will be water resistant on all supported papers (even plain paper!). Because DURABrite Ultra ink is pigment-based, ink particles will not dissolve if they come into contact with water. So, prints resist smearing or accidental damage by spills or moisture.

Competitor's plain paper print sprayed with water

Plain paper print with DURABrite Ultra ink sprayed with water

### Paper handling capacity

The Epson C88+ has a high-capacity, 120-sheet input tray that holds various paper sizes, up to 8.5" x 14".

### Connectivity

The printer can be connected to multiple computers using its built-in USB and parallel ports. Plus, it can switch between ports automatically. The Epson C88+ can also be connected to different platforms simultaneously, including Macintosh and Windows-based systems. Epson also offers great Ethernet network solutions available at [www.epson.com](http://www.epson.com).

## ORDERING INFORMATION

## Epson C88+ Color Ink Jet Specifications

### Printer Specifications

#### Printing Technology

4-color, advanced MicroPiezo®, optimized for photo printing

#### Ink Type

DURABrite Ultra ink (smudge, fade and water resistant)

#### Minimum Ink Droplet Size

3 picoliters

#### Maximum Resolution

5760 x 1440 optimized dpi

#### Print Speed\*

Black text up to 23 ppm  
Color text up to 14 ppm

### Paper Handling

#### Maximum Paper Width

8.5"

#### Paper Sizes

8.5" x 11", 8.5" x 14", A4, A6, half letter, user definable (3.5" – 44" in length); borderless photo sizes 4" x 6", 5" x 7", 8" x 10" and 8.5" x 11"

#### Paper Types

Supports Epson Photo Paper Glossy, Premium Photo Paper Glossy, Ultra Premium Photo Paper Glossy, Premium Presentation Paper Matte, Bright White Paper, Ink Jet Transparencies, Presentation Paper Matte, plain paper and envelopes

### Envelope Types

No. 10, DL, C6; plain paper, bond paper, air mail

### Input Paper Capacity

120 sheets/15 envelopes

### Ink Cartridges

#### Recommended Ink Cartridges\*\*

60 Black T060120  
60 Cyan T060220  
60 Magenta T060320  
60 Yellow T060420

### Hardware and Software Details

#### Weight and Dimensions (W x D x H)

Weight: 10.14 lb  
Storage: 18.11" x 9.53" x 7.60"  
Printing: 18.11" x 17.20" x 12.20"

### Connectivity

USB and parallel (IEEE 1284)

### Operating Systems

Windows Vista™, Windows XP Professional x64, XP, 2000, Me, 98SE  
Mac OS X 10.2.8, 10.3.9 to 10.4.x  
(Power PC® or Intel® Core™ processor)

### Software Included

ArcSoft® PhotoImpression™  
(PC and Macintosh compatible, Exif Print-enabled, Web to Page)

### Sound Level

42 dB

### Environmental Conditions

#### Temperature

Operating: 50° to 95° F (10° to 35° C)  
Storage: -4° to 140° F (-20° to 60° C)

### Relative humidity

Operating: 20 – 80%  
Storage: 5 – 85% (no condensation)

### Safety Approvals

Safety standards UL60950, CSA C22.2 No. 60950  
EMI FCC Part 15 subpart B class B,  
CAN/CSA-CEI/IEC CISPR 22 class B

### Power Requirements

Rated voltage: 120 V AC +/- 10%  
Rated frequency: 50 – 60 Hz  
Rated current: 0.4 – 0.2 Amp (max.)

### Power Consumption

Approx. 19 W ISO 10561  
Approx. 4.5 W (Sleep Mode)  
Approx. 0.8 W (Power Off Mode)  
ENERGY STAR compliant

### Warranty

One-year limited warranty in the U.S. and Canada

\* Pages per minute (ppm) speed measured after first page, based on black and color text patterns in Draft Mode on plain paper. Additional print time will vary based on system configuration, software application and page complexity. See [www.epson.com/printspeed](http://www.epson.com/printspeed) for more information about print speed.

\*\* We recommend that you use genuine Epson ink cartridges. The use of other products may affect your print quality and could result in printer damage. Yields vary considerably based on images printed, print settings, paper type, frequency of use and temperature. For print quality, a variable amount of ink remains in the cartridge after the "replace cartridge" indicator comes on. The printer ships with full cartridges and part of the ink from the first cartridges is used for priming the printer. See [www.epson.com/cartridgeinfo](http://www.epson.com/cartridgeinfo) for more information about cartridges.

\*\*\* Fade resistance rating is based on accelerated testing of prints on specialty media, displayed indoors under glass or UV filter. Actual print stability will vary according to media, printed image, display conditions, light intensity, humidity and atmospheric conditions. Epson does not guarantee longevity of prints. For maximum print life, display all prints under glass or UV filter or properly store them. Visit [www.wilhelm-research.com](http://www.wilhelm-research.com) for the latest information.
