†Maximum wireless signal rate derived from IEEE standard 802.11 specifications. For best results use with devices or WiFi adapters with the same or better wireless technology. Actual data throughput and wireless coverage will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate and wireless coverage. On Networks makes no express or implied representations or warranties about this product's compatibility with any future standards.

‡Works with devices supporting Wi-Fi Protected Setup® (WPS).
