

Lightfast Color Chart

Lightfast Rating System

Lightfastness is the ability of a color to retain its original characteristics and/or withstand the effects of light over time. Prismacolor tested lightfastness in accordance with ASTM D6901-06, and has established this lightfastness rating:

I - Excellent II - Very Good III - Good IV - Fair V - Poor

Product Color 

Color Name **Violet** III

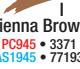

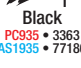

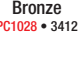

Pencil Number **PC932 • 3360**

Art Stix Number **AS1932 • 77184**

Item Number _____

*Only products with an item number are sold individually
