**Naturally proven to work**
- The only Wake-up Light clinically proven to work
- Developed by Philips, experts in light for over 100 years.
- 92% of users agree that it is easier to get out of bed
Inspired by nature’s sunrise, light gradually increases within 30 minutes until your room is filled with bright yellow light. This process of increasing light mirroring a sunrise, stimulates your body to wake up naturally. By the time light has filled the room your chosen natural sound is added to complete the gentle wakeup experience, leaving you ready to Rise and Thrive for the day ahead.

5 Natural Sounds

At your set wake up time natural sound will play to complete the wake up experience and ensure you are awake. The selected sound gradually increases in volume to your selected level within one and a half minute. There are five natural sounds you can choose from: Bird Song, Birds in the forest, Zen Garden, Gentle piano and Seaside Sounds.

FM Radio

Listen to your favorite radio show while you are waking up.

The brightness of the display adjusts itself. If the bedroom is filled with light, the brightness increases to keep the display readable. When the bedroom is dark the brightness dims so it doesn’t light up your bedroom when you are trying to sleep.

Tap Snooze

A slight tap anywhere on the Wake-up light, sets the snooze mode. After 9 minutes the sound will gently start playing again.

Proven by scientists

At this moment in time the Philips wake-up light is the only one scientifically proven to work. In order to make the Wake-up Light the best possible product it can be in genuinely waking you up naturally and energized we have done a lot of clinical research. This research was conducted by independent science facilities to study and prove the effects of the wake-up light on the overall wake up experience. This way we have proven, among other things, that the Philips Wake-up Light not only wakes you more naturally, but also more energized and that it improves your mood in the morning.

Developed by Philips

Philips was founded over a 100 years ago as a company that produced and sold lightbulbs. Over 100 years Philips grew into a global company that brings innovation in lots of different areas. To this day lighting still is the soul of Philips. The Wake-up Light is proud to continue its heritage by building on years of knowledge and expertise of the world’s most well know lighting expert.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
Specifications

**Easy to use**
- Anti-slip rubber feet
- Snooze type: Smart snooze
- Display brightness control: Self adjusting
- Instore demo function
- Number of alarm times: 2
- Tap snooze for sound: 9 minutes
