>> [assembly instructions](#)

Congratulations on your latest Target purchase.

Now what? Don't start sweating over this box of parts. This will be easy. We did the hard work for you. All you need to do is follow our simple instructions and you'll be on your way to transforming your room in no time. Good luck—though we're confident you won't need it.

before you begin

1. Check for damaged or missing parts. Call 1-800-874-0008 to order missing supplies.
2. Use the carton as a working surface to prevent product damage during assembly.
3. Gather all tools prior to assembly.

safety precautions

warning

- This unit contains small parts which could be a choking hazard for small children. Children should be under adult supervision at all times or serious injury could occur.
- Always unload unit prior to moving the unit. The weight of personal belongings can cause the unit to become unstable and either tip or collapse. Serious bodily injury and/or damage to personal belongings may occur.
- Do not overload unit. If any shelf, top, or bottom of unit bows or bends, it is overloaded. The shelf, top, or bottom could collapse and cause serious bodily injury and/or damage to personal belongings.
- Do not climb or step on the unit. This is not a bench. The unit may become unstable and either tip or collapse. Serious bodily injury and/or damage to personal belongings may occur.
- Do not use this unit as a television stand. Serious bodily injury and/or damage to personal belongings may occur.
- Do not mount or attach anything to the sides, rear or front of the unit as this can create a force which can cause the unit to tip. Serious bodily injury and/or damage to personal belongings may occur.
- Do not stack units. Stacking of units can cause an unsafe tip-over hazard which may cause serious bodily injury and/or damage to personal belongings.
- Do not hang this unit on the wall. The product structure is not designed for wall hanging. Serious bodily injury, damage to personal belongings, and/or damage to the wall may occur.
- All units must be secured individually to wall stud using hardware provided. If wall stud is not accessible, consult your local hardware store for appropriate mounting hardware. Failure to do so may create an unsafe tipping hazard that could lead to serious bodily injury and/or damage to personal belongings.
- Follow proper safety procedures if using power tools and ladders.
- We recommend you protect your work surface during assembly to prevent scratching or damage to table tops, wood floors, etc.
- We recommend you hand-tighten screws. Use care not to overtighten if using power tools.

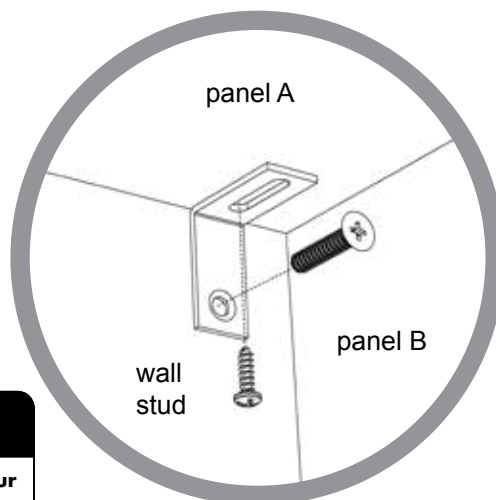

installing L-bracket

There are several "key points" to L-bracket installation. Please review the drawings and comments at right as well as the assembly steps provided.

All units must be fastened to the wall. Always mount L-bracket to a wall-stud.

The L-bracket is intended to be installed on panel A.

Secure L-bracket on the inside of panel A. See step 5 for detailed installation instructions.

Install the screw hole end of L-bracket against at least one wall stud; horizontal adjustable end against unit. L-bracket must be mounted no more than 1 1/2 inches from edge of panel.

WARNING

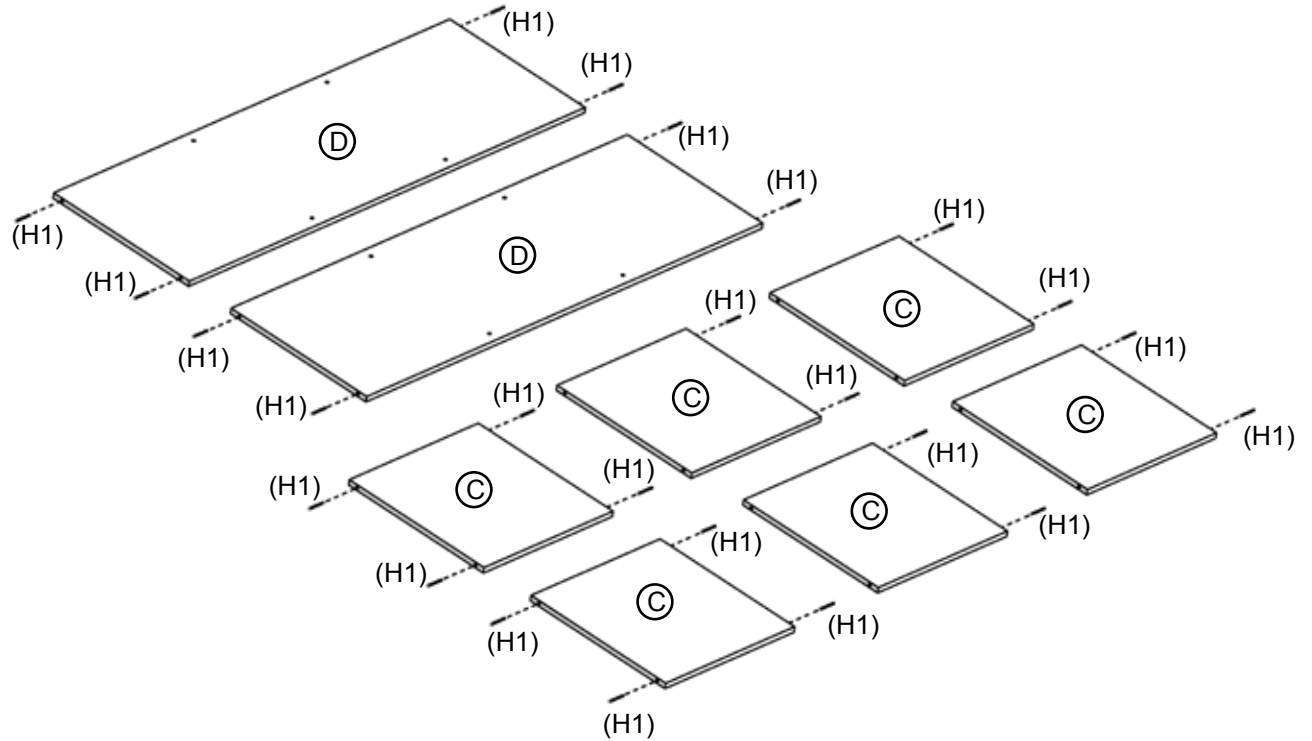

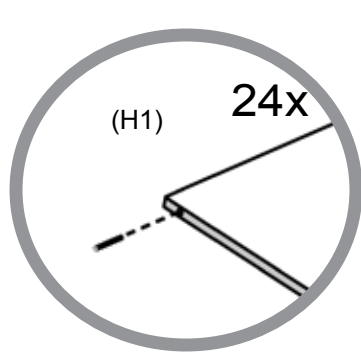

Serious or fatal crushing injuries can occur from furniture tip-over. To help prevent tip-over:

- Install tip-over restraint provided.
- Unless specifically designed to accommodate, do not set TVs or other heavy objects on top of this product.
- Never allow children to climb or hang on drawers, doors, or shelves.
- Place heavy items on lower shelves and as far back as possible.

Use of tip-over restraints may only reduce, but not eliminate, the risk of tip-over.

This is a permanent label. Do not attempt to remove.

step 1.

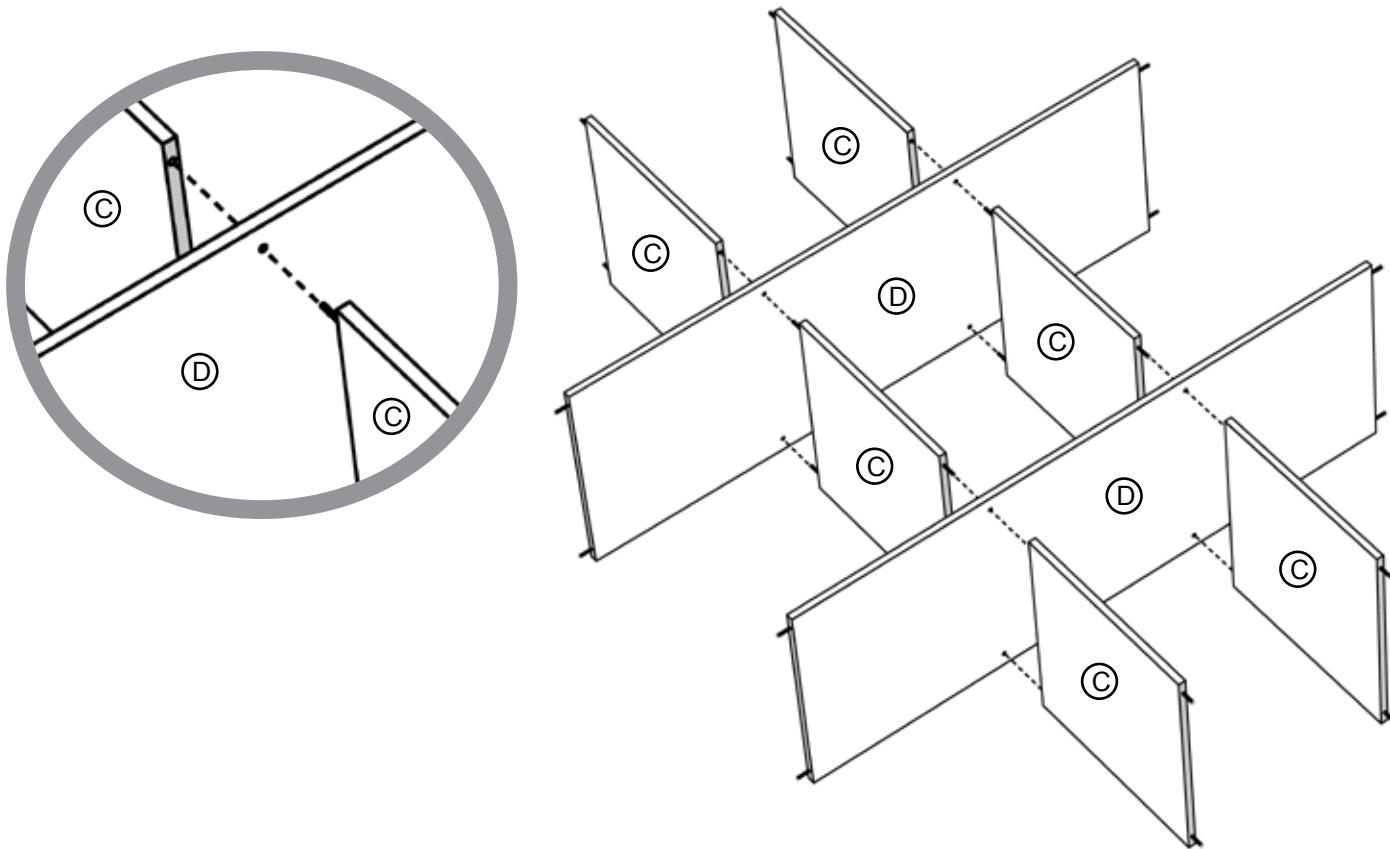

(H1) x 24
pre-glued dowel

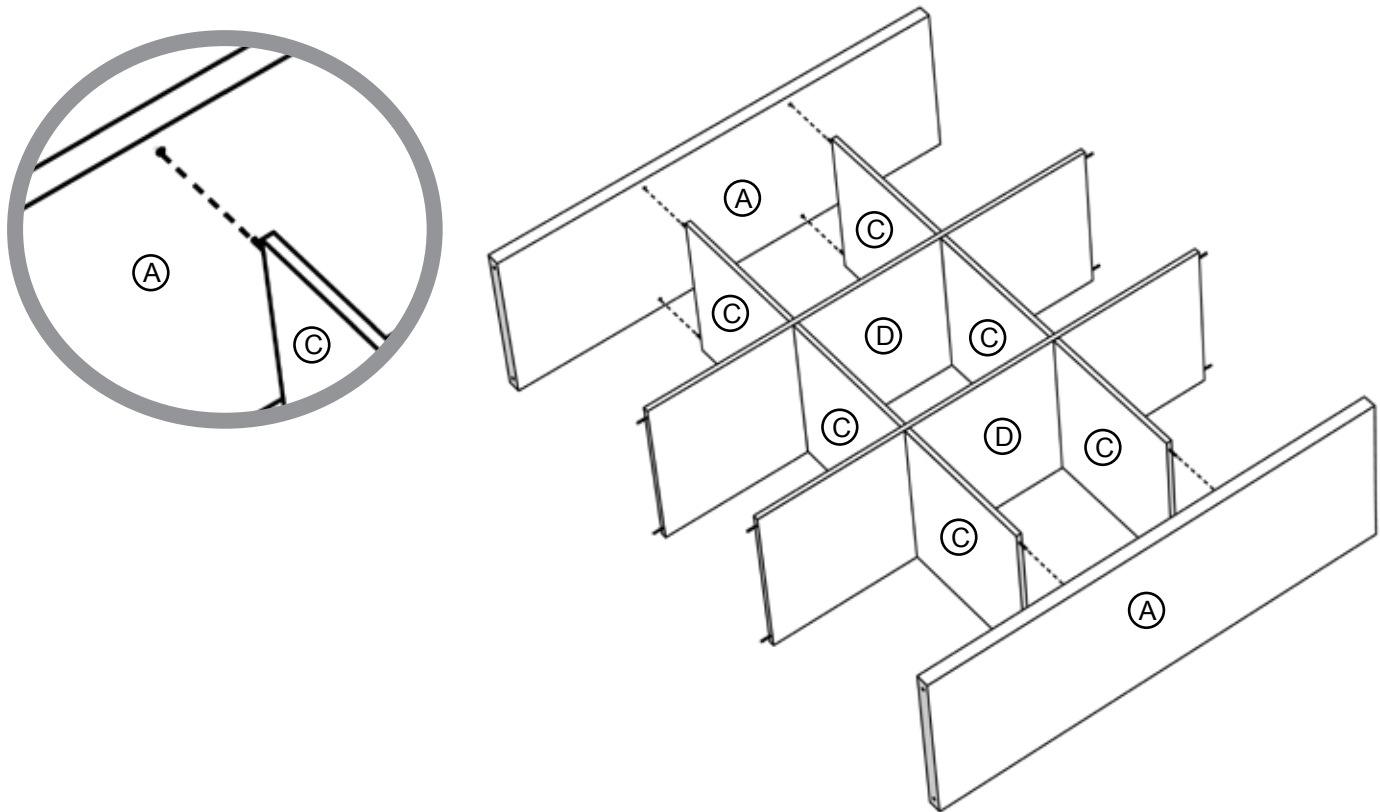

1. Arrange fixed shelves (D) and dividers (C) as shown.
2. Quickly dip pre-glued dowels into a cup of water, making sure entire dowel gets wet.
3. Immediately push dowels into holes on unfinished edges of each panel. Four dividers will only have two dowels on one side.

step 2.

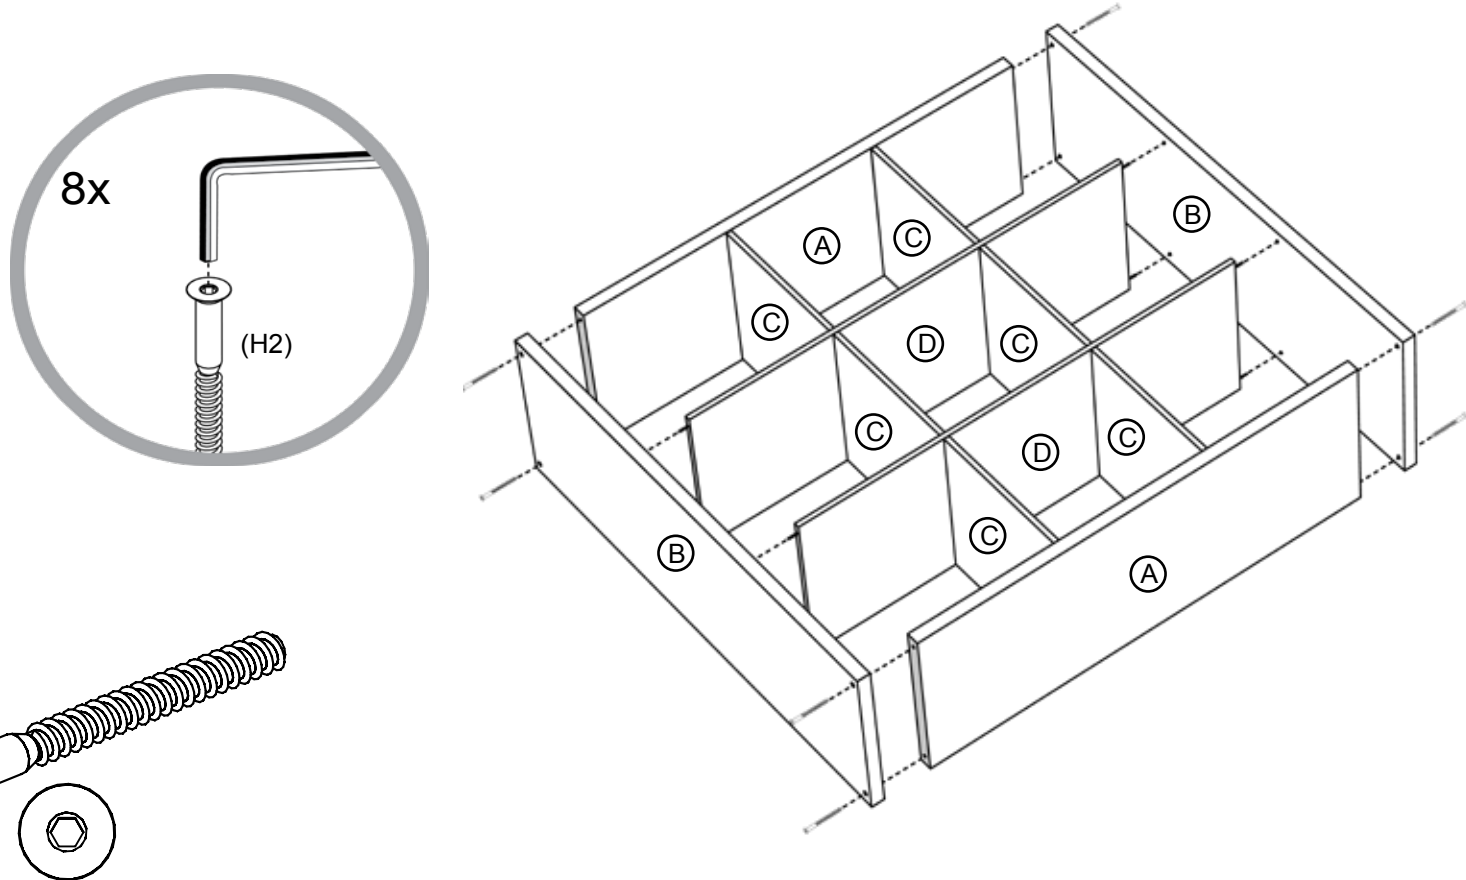

1. Align dowels on dividers (C) with center holes on fixed shelves (D) as shown.
2. Push dividers into place. Dowels in dividers (C) should interlock with dividers (C) on other side of fixed shelf (D).

step 3.

1. Align dowels on dividers (C) with center holes on both top/bottom panels (A).
2. Push top/bottom panels into place.

step 4.

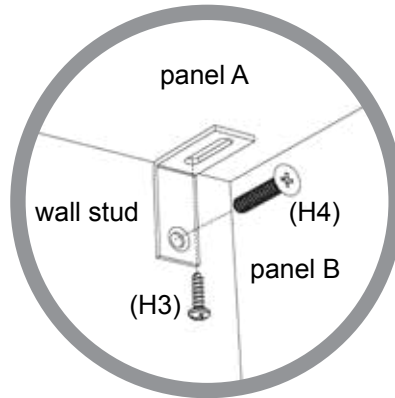

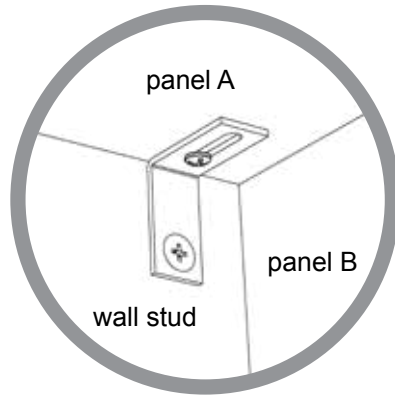

1. Align center holes in each side panel (B) with dowels in fixed shelves (D).
2. Secure side panels (B) to both top/bottom panels (A) using four hex screws for each panel. Tighten screws using supplied hex wrench.

step 5.

⚠ warning

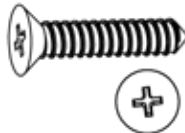

All units **MUST** be fastened to the wall.

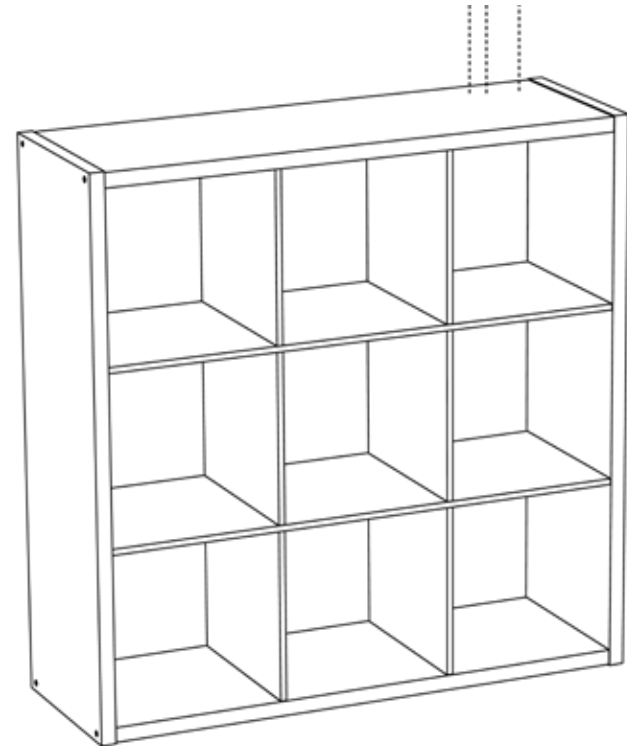

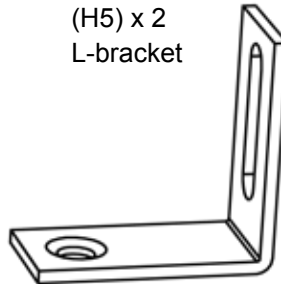

(H3) x 2
L-bracket screw
#10 x 1/2"

(H4) x 2
wall screw
#10 x 1-1/2"

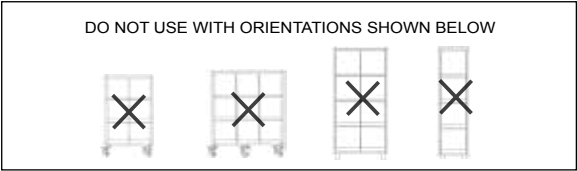

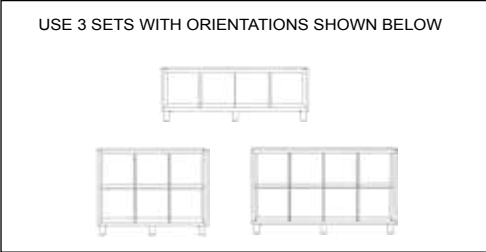

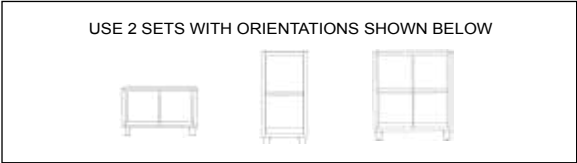

(H5) x 2
L-bracket

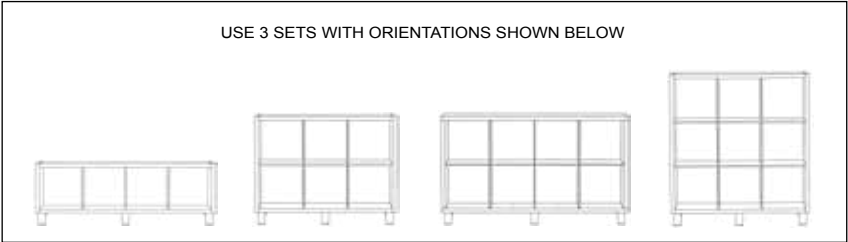

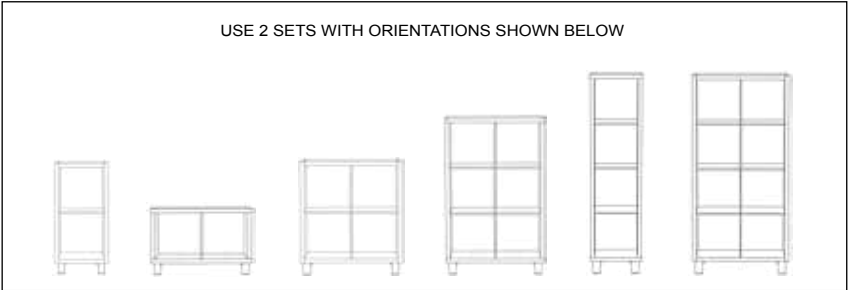

1. Align side of unit with wall stud.
2. Place small hole end of L-bracket against wall/wall stud. Use 1-1/2" screw to secure L-bracket to wall.
3. "Use 1/2" screw to secure L-bracket to panel A. L-bracket must be mounted no more than 1 1/2 inches from edge of panel.

weight capacity/care instructions

warning

This unit has been designed for the weight shown. Exceeding this recommended weight could result in excessive "sagging" of the top or shelves. Extreme overloading can cause failure of the unit and possible injury.

Care Instructions:

Dust with a clean, lint-free dry cloth.
