

McAfee® AntiVirus Plus

Standard, award-winning protection for your PC

McAfee AntiVirus Plus, from Intel Security, provides award-winning security for your PC. Ideal for individuals in need of protecting a Windows PC.

At McAfee, we live and breathe digital security, relentlessly working to stay several steps ahead of the latest online threats. Every second of every day we focus on one thing: keeping your digital life safe. Enjoy the benefits of socializing, downloading, and shopping online knowing your PC is shielded from online threats.

Top 3 Benefits of McAfee AntiVirus Plus:

1. Shield your PC from viruses and online threats
2. Optimize your PC's performance
3. Wi-Fi and download protection tools

Award-Winning Anti-Virus Protection

McAfee AntiVirus Plus leverages the power and threat intelligence of more than 100 Million McAfee customers world-wide to identify, quarantine, and stop the latest threats from harming your PC.

Optimize Your PC's Performance

Improved! McAfee® QuickClean™ and Vulnerability Scanner features speed up your PC and browser while ensuring you're running the latest versions of your favorite applications.

Wi-Fi Protection

Improved! Features our powerful two-way Firewall (NetGuard) to protect against dangerous downloads, and Wi-Fi network intrusion notifications to alert you when unwanted guests are stealing Wi-Fi bandwidth.

- Minimum screen resolution: 1024x768 or higher

Internet Connection Required:

High-speed connection recommended

Supported Browsers:

- Internet Explorer 8.0 or later
- Firefox 4.0 or later
- Google Chrome

What's Included in McAfee AntiVirus Plus:

Features	What it does	How it protects
McAfee Active Protection™	Detects, quarantines, and blocks viruses, and malware.	If we find something malicious, we isolate it so it can't cause damage to your PC.
Global Threat Intelligence	Deploys real-time protection from the latest threats collected from more than 100 Million McAfee users by an aggregator that combines and categorize threat data into actionable intelligence.	Uses the same reputation database as the Department of Defense by leveraging the latest threat intelligence shared from businesses and personal users.
NetGuard	Two-Way Firewall system monitors and stops traffic in and out of your PC trying to connect to suspicious servers and known botnets.	Prevents hackers from gaining access to your PC and stops cyber criminals from using your PC to spread viruses and online threats.
Network Manager	Monitor your home Wi-Fi network.	Block unknown devices from accessing your Wi-Fi. Prevents others from eavesdropping on your internet usage.
SiteAdvisor®	Identifies URLs as safe, potentially risky, or known to be risky to visit.	Helps you make smarter decisions about what you click, and protects you from malicious downloads.
Vulnerability Scanner	Identifies software in need of updating by checking the version on your PC against our database.	Enables you to more easily update your software to patch potential security holes that online threats can exploit.
McAfee® QuickClean™	Deletes unnecessary cookies and temporary internet files that slow down your PC.	Improves your PC's performance.
McAfee® Shredder™	Securely destroy sensitive electronic files.	Deleting files and emptying your PC's recycle bin isn't enough. McAfee Shredder prevents deleted files from being recovered.
