# Introducing the Small-Business-Class Black-and-White Lineup

## Product Lineup Overview

This Evaluator Guide introduces you to our lineup of small-business-class black-and-white, letter/legal-size printers and multifunction printers. These products are ideal for individuals and small teams of professionals.

To help you select which black-and-white product is the right fit for your specific needs, we provide a simple breakdown of the key Xerox advantages, and explain the performance attributes, capabilities, features and detailed specifications for each Xerox® device.

Below is a quick glimpse of the Xerox® black-and-white printers and multifunction printers covered in this Evaluator Guide. You'll find additional details regarding each device's capabilities, features and benefits in the sections that follow.

### **XEROX® B210 PRINTER**

- Print
- Ideal for 1 to 5 users
- Print up to 31 ppm
- Recommended monthly print volume: Up to 4,000 pages
- 251-sheet standard paper capacity
- Wi-Fi standard

### **XEROX® PHASER® 3330 PRINTER**

- Print
- Ideal for 1 to 5 users
- Print up to 42 ppm
- Recommended monthly print volume: Up to 6,000 pages
- 300-sheet standard paper capacity expandable to 850 sheets
- Wi-Fi standard

### **XEROX® PHASER® 3610 PRINTER**

- Print
- Ideal for 1 to 10 users
- Print up to 47 ppm
- Recommended monthly print volume: Up to 12,000 pages
- 700-sheet standard paper capacity expandable to 2,350 sheets

### **XEROX® VERSALINK® B400 PRINTER**

- Print
- Ideal for 2 to 10 users
- Print up to 47 ppm
- 5-inch capacitive color touch screen user interface featuring full customization and personalization
- Native @printbyXerox support, cloud connectivity access and limitless expansion via the Xerox App Gallery
- Mobile printing support across multiple platforms and NFC Tap-to-Pair
- Recommended monthly print volume: Up to 15,000 pages
- 700-sheet standard paper capacity expandable to 2,350 sheets

### **XEROX® VERSALINK® B600/B610 PRINTER**

- Print
- Ideal for 8 to 20 users
- Print up to 58/65 ppm
- Recommended monthly print volume: Up to 30,000 pages
- 700-sheet standard paper capacity expandable to 3,250 sheets

**Xerox® Black-and-white Letter/  
Legal-size Multifunction Printers**

Need more performance? Xerox offers a full line of advanced black-and-white multifunction printers for every office and every budget. Visit [www.xerox.com/office](http://www.xerox.com/office) or contact your Xerox sales representative to learn more.

Xerox® B215 shown.

**XEROX® B205/B215  
MULTIFUNCTION PRINTER**

- Print / copy / scan / fax<sup>1</sup>
- Ideal for 1 to 5 users
- Print up to 31 ppm
- Recommended monthly print volume: Up to 2,500 pages for the B205, Up to 3,000 pages for the B215
- 251-sheet standard paper capacity
- Wi-Fi standard

<sup>1</sup> Xerox® B215

**XEROX® WORKCENTRE® 3335  
MULTIFUNCTION PRINTER**

- Print / copy / scan / fax / email
- Ideal for 1 to 10 users
- Print up to 35 ppm
- Recommended monthly print volume: Up to 4,000 pages
- 300-sheet standard paper capacity expandable to 850 sheets
- Wi-Fi standard

**XEROX® WORKCENTRE® 3345  
MULTIFUNCTION PRINTER**

- Print / copy / scan / fax / email
- Ideal for 1 to 10 users
- Print up to 42 ppm
- Recommended monthly print volume: Up to 6,000 pages
- 300-sheet standard paper capacity expandable to 850 sheets
- Wi-Fi standard

**XEROX® VERSALINK® B405  
MULTIFUNCTION PRINTER**

- Print / copy / scan / fax / email
- Ideal for 2 to 10 users
- Print up to 47 ppm
- 5-inch capacitive color touch screen user interface featuring full customization and personalization
- Native @printbyXerox support for efficient and secure mobile printing, easy cloud connectivity with access to Dropbox™, Google Drive™, OneDrive® and more, and limitless expansion via the Xerox App Gallery
- Mobile printing support across multiple platforms and NFC Tap-to-Pair
- Recommended monthly print volume: Up to 15,000 pages
- 700-sheet standard paper capacity expandable to 2,350 sheets

# Evaluating Your Needs

## Xerox® Printers and Multifunction Printers

Consider the capabilities you need and the performance requirements of your office.

When evaluating which black-and-white product best addresses your needs, it's important to have a clear understanding of exactly what those needs are.

Do you need a no-frills printer that connects directly to a single workstation? Or does your workload demand a higher-performance device that's designed to support the printing, copying, faxing, scanning and emailing needs of several networked users in a fast-paced environment?

When evaluating your day-to-day office needs, consider these factors:

- Print-only vs. print / copy / scan / fax / email
- Number of users
- Network connectivity
- Output speed
- Recommended monthly print volume
- Paper capacity
- Automatic document feeder
- Automatic two-sided printing
- Maximum print cartridge capacity
- Device dimensions
- Wireless capabilities

Consult the chart on the following page for a device-by-device listing of these capabilities and performance attributes on the Xerox® small-business-class black-and-white lineup.

<sup>1</sup> Average standard pages. Declared Yield in accordance with ISO/IEC 19752. Yield will vary based on image, area coverage and print mode.

# Evaluating Productivity

## Printing and Copying

Consider efficiency tools to enhance printing and copying capabilities.

The basic printing and copying productivity that a device can deliver is a critical consideration when evaluating which printer or multifunction printer to purchase for your office.

Does the device deliver the level of performance required to support the demands of a busy single user or small workteam?

Does it offer the flexibility to create more office document possibilities? Can it be expanded in the future to include additional features for your increasing workload, such as expanded memory?

Are there work-saving features designed to improve office efficiency?

Look for the following performance attributes and helpful features when comparing our lineup of small-business-class printers and multifunction printers.

### PERFORMANCE

#### Output Speed

Measured in pages-per-minute (ppm).

#### First-page-out Time (FPOT)

For average print jobs of three pages or less, the most important specification is First-page-out Time, which is the time it takes for the device to receive and process print or copy data, and produce the first page.

#### Adobe® PostScript® 3™

PostScript is a page description language that acts as an interpreter inside the print engine. It translates the information from your computer into a language the printer can understand. Because processing occurs within the device, there is less network traffic and increased efficiency.

#### PCL®

PCL (Printer Command Language) is a page description language that functions in similar fashion to that of Adobe PostScript. The versions most commonly found with Xerox® printers and multifunction printers are PCL 5c, 5e and/or 6.

#### Processor

The faster a device's internal processor (measured in Hz), the quicker it is to print complex documents.

### FLEXIBILITY

#### Expandable Memory

Several of the printers and multifunction printers discussed in this guide allow the installation of additional RAM, which increases a device's print productivity and enables more advanced features.

#### Automatic Two-sided Printing and Copying

With automatic two-sided printing, multipage print jobs are automatically printed on the front and back side of each sheet of paper for increased efficiency and reduced paper usage.

#### Booklet Printing

With booklet printing, the printer driver formats printed documents, such as brochures or handouts, for folding into booklets to create professional-looking collaterals in-house.

#### N-up Printing, N-up Copying

With N-up printing and N-up copying, multiple pages are reduced in size and then printed/copied on a single sheet of paper. This feature is especially useful when outputting presentations or numerous thumbnail images, or when trying to conserve paper.

#### Poster Printing, Poster Copying

Poster printing and poster copying enlarge an image by printing/copying portions of it onto multiple pages, which can be secured together to create a poster.

#### ID Card Copy on Multifunction Printers

Copy both sides of an ID card, driver's license or other small document and print onto a single sheet of paper.

### WORK-SAVING FEATURES

#### RAM Collation

By using the internal RAM to collate multiple sets of multipage print jobs, RAM collation eliminates the need to manually collate documents after the print job is completed.

#### Automatic Document Feeder (ADF)

An ADF allows you to load a stack of originals for automatic copying, scanning or faxing at the touch of a button. ADF capacities range from 35 sheets to 50 sheets for this class of multifunction printers.

# Evaluating Productivity

## Scanning and Faxing

Consider the benefits of paperless work processes.

Scanning and faxing powers the conversion of paper to electronic documents, enabling digital distribution and archiving of hard-copy documents for increased workflow efficiency and reduced consumables usage. Additional tools let you manage documents and convert scanned images into editable files.

Xerox® small-business-class multifunction printers include powerful scanning capabilities and helpful features that streamline office-work processes for busy individuals and small workteams.

### SCAN FILE FORMATS

Xerox® multifunction printers allow you to specify the file format into which the scanned document is converted for greater flexibility and to ensure compatibility with potential recipients.

### SCANNING CAPABILITIES

#### Scan to PC / Mac

Scan a document at the multifunction printer and route the digital file directly to your network.

#### Scan to USB Memory Device

A standard USB port on the front of the multifunction printer accepts any removable USB memory device. Scanned documents can be saved directly to the USB memory device for increased document portability.

#### Scan to Email

Send scanned documents to one or more email recipients at the same time directly from the multifunction printer. This helpful productivity feature eliminates the need to scan a file to your workstation and emailing the scanned document as an attachment.

#### Scan to Network

For fast and easy digital archiving, Xerox® multifunction printers with the Scan to Network capability allow you to transfer scanned documents over your network directly to a host server or computer using a specified network protocol, such as FTP or SMB.

#### Color Scanning

Multifunction printers with color scanning capability allow your color documents to retain their full-color characteristics when scanned at the device.

#### LDAP Support

The Lightweight Directory Access Protocol, or LDAP, enables the multifunction printer to retrieve recipients' contact information directly from your network, eliminating the need to manually enter email addresses and fax numbers at the device.

### FAXING CAPABILITIES

Xerox® multifunction printers help you consolidate office devices without sacrificing the powerful faxing capabilities you rely on as an important communication tool.

#### Walk-up Fax

With walk-up fax capability, the multifunction printer operates as a traditional fax machine, using a standard telephone connection and 33.6 Kbps transmission speed.

#### LAN Fax

Multifunction printers with LAN fax functionality let you fax documents directly from your workstation via the print driver.

#### Fax Forward to Email

With fax forward to email, incoming fax transmissions can be automatically routed directly to your email inbox for convenient fax receipt any place with Internet access.

#### Fax Forward

Allows you to forward received faxes to other fax machines for easy distribution.

#### Fax Resolution

The fax resolution for each multifunction printer is specified as the maximum number of dots per inch (dpi).

#### Secure Fax Receive

When a fax containing sensitive information is received by the multifunction printer, it stays in memory until the intended recipient enters a password at the device and allows the document to print.

# Evaluating Productivity

## Paper Handling

Review your current and future print volumes and media requirements.

When evaluating paper handling capabilities, consider your current and future print requirements. How many print jobs do you run each day? Will you need additional paper trays so you can keep sufficient quantities of different types of paper loaded? Do you print on heavyweight papers and/or different types of media, such as labels and transparencies?

The following considerations should be kept in mind when evaluating this class of Xerox® printers and multifunction printers.

### PAPER CAPACITY

Ample paper capacity allows you to print more without interruption. If you print a lot, or anticipate an increase in your printing workload, consider adding an extra paper tray.

### AUTOMATIC TWO-SIDED PRINTING

If you'd like the ability to produce your own professional-looking collaterals, look for automatic two-sided printing. You'll not only improve the look and feel of your documents, you'll also use less paper.

### AUTOMATIC DOCUMENT FEEDER

Need to copy multipage documents? An automatic document feeder lets you insert an entire report, presentation or any other multipage collateral into the device and copy every page at the push of a button.

### CUSTOM MEDIA AND PAPER SIZES

The right paper handling capabilities and features allow you to bring more types of color print jobs in house. Consider the variety of media the printer or multifunction printer can handle, such as labels and card stock, and whether the device accepts a wide range of paper sizes.

# Evaluating Environmental Sustainability

## Consider features that minimize environmental impact.

The environmental impact of an office device can be assessed in a variety of ways. Does it meet ENERGY STAR® standards? Does it have energy saving and paper-saving features? Does the manufacturer have a recycling plan?

In 2007 and 2008, Xerox was named to the Dow Jones Sustainability Index for North America. In addition, we were picked by an independent research firm, KLD, which identifies companies that meet globally recognized standards for corporate responsibility. But our environmental leadership goes far beyond reducing our own environmental footprint. Our products, such as the printers and multifunction printers discussed in this guide, help our customers become greener as well.

With small, toner-only cartridges and a commitment to using cleverly designed packaging, Xerox® products help reduce office waste.

Plus, Xerox was among the first technology companies to set a company-wide target for reducing greenhouse gas emissions. We joined the U.S. EPA Climate Leaders program in 2003 and subsequently set a target to reduce total greenhouse gas emissions by 10 percent from 2002 to 2012. We achieved our first goal six

years early and then announced an even more aggressive goal – a 25 percent reduction in total greenhouse gas emissions from 2002 to 2012.

Look for the following attributes when evaluating the environmental sustainability strengths of this class of printers and multifunction printers.

### ENERGY-SAVING FEATURES

**ENERGY STAR® qualified.** VersaLink printers and multifunction printers meet the stringent ENERGY STAR requirements for energy use.

### EPEAT®

Multiple Xerox printers and multifunction printers meet or exceed the criteria for EPEAT® – a comprehensive environmental rating system that identifies electronic equipment based on environmentally friendly design, production, energy use and recycling.

### WASTE-REDUCING FEATURES

#### Toner Saver

With Toner Saver mode, less toner is applied to each sheet of paper, further extending print-cartridge life.

### PAPER-SAVING FEATURES

#### Automatic Two-sided Printing

With automatic two-sided printing, multipage print jobs are automatically printed on the front and back side of each sheet of paper for increased efficiency and reduced paper usage.

#### N-up Printing, N-up Copying

With N-up printing and N-up copying, multiple pages are reduced in size and then printed/copied on a single sheet of paper. This feature is especially useful when trying to conserve paper.

### RECYCLING

#### Green World Alliance

For qualified printers and multifunction printers, Xerox makes it fast, easy and free for you to recycle your depleted toner cartridges through our Green World Alliance Recycling Program. Visit [www.xerox.com/gwa](http://www.xerox.com/gwa) to learn more.

# Evaluating Ease-of-Use and Management

Take a look at how easy the device is to use and manage on a network.

In most cases, individual users and small businesses have limited access to IT resources. Therefore, it's important that the printer or multifunction printer is easy to install, use and manage.

Evaluate the tools delivered with the printer and multifunction printer, and whether they will ease the task of installing the device and simplify day-to-day usage and management. Is the device simple to operate, and will users quickly feel comfortable with it? Are the user interfaces, both the front panel and print driver, well designed and easy to navigate?

Xerox® printers and multifunction printers are designed to be set up and installed by non-technical users. The included Quick Install Guide helps install optional accessories and connect the device to your network and a power source.

Easy-access consumables, such as toner cartridges, allow for fast, easy replacement by any user for minimal device downtime.

Also, all Xerox® drivers are Windows® Hardware Quality Labs (WHQL) certified, ensuring compliance with Microsoft® standards and seamless compatibility with MS Windows environments.

Look for the following attributes and features when evaluating the ease-of-ownership offered by the Xerox® multifunction printers covered in this guide.

## INSTALLATION AND MANAGEMENT

### Xerox® Installer

The Xerox® Installer greatly simplifies the driver installation process, getting your printer and multifunction printer up and running in about two minutes – with no computer reboot required.

### DHCP

With the DHCP networking protocol, your device will automatically be assigned an IP address and join your network.

### Pre-installed Print Cartridges

Xerox® printers and multifunction printers with pre-installed print cartridges are virtually plug-and-play.

### Xerox® CentreWare® Internet Services (CentreWare IS) / Xerox® Embedded Web Server

CentreWare IS is an embedded web server that allows networked users to connect to their printer or multifunction printer via any standard web browser to install print drivers, monitor printer status, view the print job queue, manage settings and properties and access troubleshooting and support resources.

### Xerox® CentreWare® Web

Office environments that have multiple printers and multifunction printers connected to their networks can install, monitor, configure, track usage and troubleshoot from any workstation via one convenient and powerful web application. Additionally, the interoperability of CentreWare Web means it can be used to monitor non-Xerox devices as well.

### Mac Friendly

And for users in Mac environments, peace of mind comes from knowing that Xerox® printers and multifunction printers are the devices of choice for more Mac users than any other brand of office equipment.

## DAY-TO-DAY USE

### Bi-directional Print Drivers

With bi-directional print drivers, two-way communication between your computer and your printer or multifunction printer allows you to receive helpful device-status updates on your screen.

### Xerox® Global Print Driver®

This truly universal print driver lets you install, upgrade and manage Xerox® and non-Xerox® devices from a single driver.

### Xerox® PrintingScout® Software

This driver-based feature monitors and reports any printer condition that prevents a print job from completing successfully. PrintingScout is designed to provide timely and useful information that allows users to identify and resolve their own printing issues.

### Front-panel Toner-level Gauges

Conveniently located on the device's front panel, intuitive indicators let users quickly see how much toner remains.

## SUPPORT AND SERVICE

To us, support means providing easy access to the resources you need to ensure your Xerox® device performs at the highest level, continuously delivering optimum results.

## Unrivaled Service

Behind every Xerox® product is a large network of North America-based customer support that's unrivaled in the industry and available when you need it. Our service professionals use leading-edge technologies to keep you up and running. They're even linked to the engineers who designed your product, so you can be confident when you choose Xerox.

Customers also have 24/7, Internet-based access to our knowledge base system, which provides problem-specific solutions or guides users through a troubleshooting tree.

### You decide when you're satisfied.

Visit our support website, at [www.support.xerox.com](http://www.support.xerox.com), for additional information about the ways in which we help our customers stay more productive, longer.

# Evaluating Security

Evaluate whether the device provides the appropriate safeguards at all points of vulnerability.

Security is a critical competency no matter how small your business. Does the device offer the appropriate level of security for your business? Is it scalable to provide more security if your needs change? The technology you deploy must include the necessary capabilities to protect sensitive data. Xerox® Phaser® and Xerox® WorkCentre® small-business-class printers and multifunction printers provide a variety of security features that safeguard your information on the network and at the device.

## NETWORK

### 802.1X

The 802.1X protocol adds a layer of security to the network to prevent unauthorized devices from establishing a network connection.

### HTTPS

Hypertext Transfer Protocol Secure, or HTTPS, provides data encryption and secure identification of network servers.

### IPsec

IPsec (IP security) is a suite of protocols for securing Internet Protocol (IP) communications by authenticating and/or encrypting each IP packet in a data stream.

### IPv6

IPv6, or Internet Protocol version 6, includes support for a broader range of IP addresses. The enhanced capabilities of IPv6 will provide significant security benefits to network users and administrators, including traffic encryption, integrity validation peer authentication.

### IP Filtering

IP filtering blocks potentially harmful data packets, acting like a firewall to safeguard your internal network.

### SNMPv3

The SNMPv3 protocol provides significantly enhanced security functions including message encryption and authentication.

### SSL

The Secure Sockets Layer (SSL) protocol allows a device to communicate across a network in a way designed to prevent eavesdropping, tampering, and message forgery.

### Scan to Email with Authentication

Before using a multifunction printer's Scan to Email function, the user's name and password are authenticated, providing an additional layer of security.

## DEVICE

### Secure Print

When printing a document, a user chooses a numeric password, and then sends the print job to the multifunction printer. Once at the device, the user enters the numeric password using the front-panel interface and releases the print job.

### Secure Fax Receive

When a fax containing sensitive information is received by the multifunction printer, it stays in memory until the intended recipient enters a password at the device and allows the document to print.

# Evaluating Total Cost of Ownership (TCO) and Cost/Value Benefits

## Consider how a printer or multifunction printer can help you reduce costs.

Affordability is a big consideration when choosing a printer and multifunction printer. Is the product priced competitively with comparable products? How does a multifunction printer compare with purchasing multiple stand-alone devices?

When evaluating a printer or multifunction printer, remember that the total cost includes several factors besides the initial purchase price, including the cost of supplies. Are supply costs competitive? Does the vendor provide fact-based tools and methods to help you assess current TCO?

### LOW COST PER PAGE

Laser and LED toner-based printers and multifunction printers are good choices for fast-paced businesses on a budget. Inkjet printers by comparison are often perceived as low cost alternatives, but once ink costs are taken into consideration, they often turn out to have a higher total cost of ownership (TCO) than the higher performing toner-based devices.

Having a choice between high-capacity and low-capacity cartridges can help you manage your budget. Choose high-capacity for cost savings and nonstop printing. Choose standard capacity at a lower price, if printing loads are lighter.

Reduce costs by taking advantage of cost-saving features like toner-saver mode, N-up and two-sided printing.

### THE COST OF SPACE

A compact design saves space on your desktop while smaller toner cartridges with minimal packaging use less precious office storage space. A multifunction printer can add new capabilities to your business and consolidate several office products (along with their supplies) into one.

### CONSOLIDATE AND SAVE

Multifunction printers are useful assets to help manage and control costs by eliminating some of the need for hard copy documents. You can avoid printing altogether with such features as fax forward to email and by saving scanned files directly to a USB memory drive for easy portability.

### RELIABILITY AND EASE-OF-USE

TCO can increase significantly for devices that are hard to use and maintain, unreliable, or lack the features and capabilities to efficiently and effectively produce the results you need. Xerox® printers and multifunction printers are known for their ease of use and full-featured functionality.

# Specifications

## Configuration Summaries and Options

The following sections provide details about the available configurations of each small-business-class printer and multifunction printer.

### XEROX® B210 PRINTER

B210	
<b>Speed</b>	Up to 31 ppm (Letter) / 30 ppm (A4)
<b>Duty Cycle</b>	Up to 30,000 pages / month <sup>1</sup>
<b>Paper Handling</b>	<b>Automatic Document Feeder (ADF):</b> 40 sheets; Custom sizes: 5.8 x 5.8 in. to 8.5 x 14 in. / 148 x 148 mm to 216 x 356 mm
Paper Input	<b>Main Tray:</b> Up to 250 sheets; Custom sizes: 4.14 x 5.85 in. to 8.5 x 14 in. / 105 x 149 mm to 216 x 356 mm
	<b>Manual Feed Slot:</b> 1 sheet; Custom sizes: 3 x 5 in. to 8.5 x 14 in. / 76 x 127 mm to 216 x 356 mm
Paper Output	120 sheets
Automatic Two-sided Output	Standard
<b>Print</b>	
First-page-out Time	As fast as 8.5 seconds
Resolution	up to 1200 x 1200 dpi enhanced image quality
Processor	600 MHz
Memory (std/max)	256 MB
Connectivity	Wi-Fi 802.11 b/g/n, High Speed USB 2.0, 10/100 Base-T Ethernet
Page Description Languages	PCL® 5/6, PostScript® 3™ emulation, XPS
Print Features	Bi-directional, Real-time Status, Booklet Creation, Poster Printing, Collation, Toner Save Mode, Brightness/Contrast Adjustment, Watermark, Overlay, Skip Blank pages, Favorites
Mobile Printing	Apple® AirPrint™, Google Cloud Print™, Mopria, Xerox® Print Service Plug-in for Android

<sup>1</sup> Maximum volume capacity expected in any one month. Not expected to be sustained on a regular basis.

**XEROX® PHASER®  
3330 PRINTER**

PHASER 3330	
<b>Speed</b>	Up to 42 ppm Letter / 40 ppm A4
<b>Duty Cycle</b>	Up to 80,000 pages / month <sup>1</sup>
<b>Paper Handling</b>	
Paper Input	Standard <b>Bypass Tray:</b> 50 sheets; Custom sizes: 3 x 5 in. to 8.5 x 14 in. / 76 x 127 mm to 216 x 356 mm <b>Tray 1:</b> 250 sheets; Custom sizes: 3.9 x 5.8 in. to 8.5 x 14 in. / 99 x 147 mm to 216 x 356 mm
	Optional <b>Additional Tray:</b> 550 sheets; Custom sizes: 3 x 5 in. to 8.5 x 14 in. / 76 x 127 mm to 216 x 356 mm
Paper Output	150 sheets
Automatic Two-sided Output	Standard
<b>Print</b>	
First-page-out Time	As fast as 6.5 seconds <sup>2</sup>
Resolution	Up to 1200 x 1200 dpi image quality
Processor	1 GHz
Memory	512 MB
Connectivity	USB 2.0 (front and rear ports), 10/100/1000Base-T Ethernet, Wi-Fi
Page Description Languages	Adobe® PostScript® 3™ compatible, PCL® 5e, 6, PDF Direct, TIFF, JPEG
Print Features	Watermark, Collation, Auto 2-sided prints, N-up, Poster, Booklet print, Custom page size, Fit to page, Scaling, Draft mode, Earth Smart mode, Print from USB, Job scheduling, Print from local drive, Save, Save and Print
Mobile Printing	Standard Apple® AirPrint™, Google Cloud Print™ <sup>3</sup>
	Free Download Xerox® Print Service Plug-in for Android™, Mopria®
<b>Security</b>	802.1x, Secure Print, Secure HTTPS (SSL/TLS), Secure IPP, SSL, IP Filtering, IPv6, SNMP v3, IPsec, WEP (64-/128-bit), WPA2-PSK (AES) and WPA/WPA2-Personal and WPA/WPA2-Enterprise

<sup>1</sup> Maximum volume capacity expected in any one month. Not expected to be sustained on a regular basis.

<sup>2</sup> Printing from USB.

<sup>3</sup> Depending on specific mobile device versions or vendor, the mobile device may require a free download of the app from the appropriate store.

**XEROX® PHASER®  
3610 PRINTER**

**PHASER 3610DN**

<b>Speed</b>	Up to 47 ppm letter / Up to 45 ppm A4	
<b>Duty Cycle</b>	Up to 110,000 pages / month <sup>1</sup>	
<b>Paper Handling</b> Paper Input	Standard	<b>Multipurpose Tray:</b> Up to 150 sheets; Custom sizes: 3 x 5 in. to 8.5 x 14 in. / 76 x 127 mm to 216 x 356 mm
		<b>Tray 1:</b> Up to 550 sheets; Custom sizes: 5.8 x 8.3 in. to 8.5 x 14 in. / 148 x 210 mm to 216 x 356 mm
	Optional	<b>3 Additional Trays:</b> Up to 550 sheets each; Custom sizes: 5.8 x 8.3 in. to 8.5 x 14 in. / 148 x 210 mm to 216 x 356 mm
Paper Output	250 sheets

# Support and Additional Information Sources

## UNRIVALED SERVICE AND SUPPORT

Behind every Xerox® product is a large network of customer support that's unrivaled in the industry and available when you need it. Xerox service professionals use leading-edge technologies to keep you up and running. They're even linked to the engineers who designed your product, so you can be confident when you choose Xerox. And genuine Xerox® supplies are always readily available.

## XEROX® OFFICE SERVICES SUPPORT

### Asset Management Services

- Asset Optimization and Tracking – Process and tools to optimize an enterprise's office output infrastructure and reduce hard costs.
- Break-Fix Management – Single point of ownership and management for break-fix service of all brands of office output devices, regardless of manufacturer.
- Supplies Management – Process and tools to procure, monitor and replenish all document-related supplies proactively.

### Imaging and Output Management Services

- Output Management – Single point of management of office output from all output devices, regardless of manufacturer.
- Image Capture and Workflow – Cost-efficient solutions for capturing, managing, retrieving and distributing information into digital repositories.

## Support Services

- Technology Procurement and Deployment – A creative and flexible end-to-end print/computer product acquisition solution that uses a single-point-of-contact model while lowering the total cost of acquisition.
- Help Desk Services – A broad range of enterprise services, managed through a centralized single point of contact and delivered through either an on-site or off-site model.
- End User Services – Microsoft software implementation, IT project consulting, and customer education.

## Access Managed Services

Student and Library Patron Access – Custom designed and implemented customer-managed solutions.

## Xerox eConcierge® Program\*

Free extended service coverage for eligible Xerox® printers and multifunction printers through Xerox eConcierge®. Let the free Xerox eConcierge SuppliesAssistant vastly simplify every aspect of tracking and ordering printer supplies for your networked printers for Xerox®, HP, Lexmark and other leading brands.

The Xerox® SuppliesAssistant® desktop application sends an automatic alert when supplies are low and it's time to order replacements—before you run out. The application automatically identifies each printer model and its associated supplies, so you don't have to. It even provides options like standard- and high-capacity toner cartridges, when available.
