Headset Overview
Pair

**Pair first time**

1. The first time you switch on your headset it begins the pairing process.
   - Put the headset on and turn it on.

2. While the headset LEDs are flashing red and blue, activate Bluetooth® on your phone and set it to search for new devices.
   - iPhone Settings > General > Bluetooth > On
   - Android™ SmartphonesSettings > Wireless & Networks > Bluetooth: On > Scan for devices

3. Select “PLT_Legend.” If your phone asks, enter four zeros (0000) for the passcode or accept the connection.

4. Once successfully paired, LEDs stop flashing red and blue and you hear “pairing successful.”

**NOTE** To enable caller name announcement, allow access to your contacts if your phone prompts you.

**Pair another phone**

After pairing your headset to your phone you may want to pair another or new phone.

1. Switch on your headset then choose:
   - Tap the Voice button and say “Pair mode,” or
   - Press and hold the Call button until you hear “Pairing”

2. While the headset LEDs are flashing red and blue, activate Bluetooth® on your phone and set it to search for new devices.

3. Select “PLT_Legend.” If your phone asks, enter four zeros (0000) for the passcode or accept the connection.

4. Once successfully paired, LEDs stop flashing red and blue and you hear “pairing successful.”
Your new headset has enough power to pair and make a few calls before charging is needed, though you may charge at any time.

1. Align snap-fit magnetic areas of headset and USB cable.

2. Attach cable to USB wall charger or laptop for 90 minutes. LEDs turn off once fully charged.
Fit

**Change the eartip**

Change the eartip for a better fit.

1. Push in eartip and rotate to the left to unlock it.

2. Align new eartip into slot.

3. Rotate it to the right to lock it into place.

**Wear on the left or right**

To wear the headset on your other ear, rotate the boom upwards then twist it around so the eartip is on the other side before lowering the boom.
The Basics

Make/Take/End Calls

Answer a call
Choose:
- Put on the headset to answer call, or
- Say “answer” after call is announced, or
- Tap the Call button

Answer a second call
First, tap the Call button to end current call, then tap the Call button again to answer new call.

End a call
Tap the Call button to end current call.

Reject a call
Choose:
- Say “ignore” after call is announced, or
- Press Call button for 2 seconds

Call back last call
Double-tap the Call button.

Voice dial (phone feature)
Press the Call button for 2 seconds, wait for phone prompt and then tell the phone to dial the name of a stored contact.

Caller Announcement
When wearing your headset, you will hear the name of a contact calling you so you can decide whether to answer or ignore the call.
An incoming caller name is announced:
- if your phone has the Phone Book Access Profile (PBAP)
- if you granted access to your contacts during pairing process
- if they are a stored contact

However, in the following situations, an incoming caller name is not announced:
- if you use the sensors to automatically answer a call while putting on your headset
- if the caller is unknown, unlisted, or blocked
Mute
During a call, you can mute the microphone. Tap the Mute button. You will hear “mute on” confirmation. An alert repeats every 15 minutes to remind you of microphone mute. Tap the Mute button again to open the microphone and hear “mute off” confirmation.

Adjust the volume
Toggle the Volume button up (+) or down (–) during a call or while streaming audio.

Use sensors
Smart Sensors™ technology in this headset recognizes if the headset is being worn and can automatically perform time-saving functions.

Putting on your headset will:
• Answer an incoming call
• Transfer an active call from your phone
• Resume streaming audio

Taking off your headset will:
• Transfer an active call to your phone handset
• Pause streaming audio
• Lock the Call button to avoid accidental calls

Reset Sensors
You may need to reset the sensors if they are not working as expected.

1 Test Wearing the headset, tap the Call button to test sensors. A talk time voice alert means sensors are working. A tone means sensors need to be reset.

2 Reset To reset the sensors, charge your headset and place on a flat non-metallic surface for more than 10 seconds.

Play or pause streaming audio
A 2-second press of the Play/Pause button will either pause or resume playback of streaming audio.
More Features

Voice alerts
Your headset tells you about status changes in English. You can change the voice alert language by visiting plantronics.com/myheadset and downloading the MyHeadset™ Updater tool. The available languages are Cantonese, English U.K., French, German, Mandarin and Spanish.

Voice alerts List
• “Power on/off”
• “Answering call”
• “Talk-time (x) hours”
• “Battery low”
• “Recharge headset”
• “Lost connection”
• “Phone 1 connected/Phone 2 connected”
• “Pairing”
• “Pairing incomplete, restart headset”
• “Mute on/off”
• “Volume maximum/minimum”
• “Voice recognition on/off”
• “Redialing last outgoing call”

Voice commands
Tap the Voice button 🎤, wait for command request, then say a command. For example, “What can I say?” tells you the full list of available commands. You can change the voice command language by visiting plantronics.com/myheadset and downloading the MyHeadset™ Updater tool. The available languages are English U.K., French, German, and Spanish.

Voice commands list
• “Am I connected?”
• “Answer”
• “Call information”
• “Call Vocalyst”
• “Cancel”
• “Check battery”
• “Ignore”
• “Pair mode”
• “Redial”
• “What can I say”

NOTE The voice-dial feature on your phone is initiated by pressing the Call button 📞 for 2 seconds. The voice-dial feature is not a headset voice command.

Disable the answer/ignore voice commands
To disable the “answer/ignore” voice commands:
1 Switch on the headset.
2 Press and hold the Voice button until you hear a double tone.
3 Repeat to reactivate the voice answer commands.

**Customize your headset**

Your headset understands and speaks in English. You can change the language and other settings online.

**MyHeadset™ Updater tool enables you to:**
- Receive firmware updates
- Change language for voice alerts (Cantonese, English U.K., French, German, Mandarin and Spanish)
- Change language for voice commands (English U.K., French, German, and Spanish)
- Change regional phone number for Vocalyst service
- Turn voice commands on/off
- Turn Smart Sensors™ on/off
- Turn high quality audio (A2DP) streaming on/off
- Turn "mute off" voice alert on/off

**Download MyHeadset™ Updater**

Your headset understands and speaks in English. You can change the language and other settings online.

1 Connect your headset and USB cable to your computer.
2 Download the MyHeadset™ Updater tool from plantronics.com/myheadset.
3 Edit language, regional settings, configure other features, and download updates when available.

**Multipoint**

Voyager Legend supports multipoint technology, which allows you to use one headset with two different Bluetooth mobile phones. To pair your headset to a second phone, see “Pair another phone”.

To answer a second call on the other phone, the current call must be terminated or transferred back to the first phone. If you choose not to answer, the second call will go to voice mail.

1 Tap the Call button to end the first call.
2 Tap the Call button again to answer the second call

**NOTE** To avoid issues with multipoint, use the Call button on the headset rather than your phone controls.
