

Document Scanners

Productivity | Reliability | Versatility

Epson document scanners. Whatever the need, we've got the solution.

With a versatile line of document scanning solutions, Epson offers a host of products that boast outstanding price performance in every category. Whether choosing a personal, workgroup or departmental model, Epson has the perfect scanner for your business needs.

Incorporating a full suite of innovative features and technologies, each Epson product provides a dependable document capture solution with the power and versatility your business needs to achieve critical tasks.

Maximize your business productivity

Models include features to maximize scanning productivity, such as:

- High-speed, high-capacity Automatic Document Feeders* plus models that can scan both sides of the page in one pass**
- High daily duty cycles for day-in, day-out reliability
- Versatile paper handling; all models will accommodate a wide range of paper sizes (up to 11.7x17) and weights
- Automatic paper size detection for scanning multiple paper sizes in a single batch
- Network connectivity (standard or optional, depending on the models)
- Ultrasonic double-feed detection (on the WorkForce™ Pro GT-S80)
- No warmup times on models with LED and Xenon lamps

Easy-to-use, one-touch buttons

Epson document scanners are powerful, but easy to use. Most models are pre-configured to offer one-button scanning to common applications such as PDF, searchable PDF, e-mail, OCR and business card programs. Newer models use the Epson Event Manager, which allows you to configure complex jobs that can be initiated with a single button, making Epson scanners easy to use even by untrained or infrequent users. In addition, all models include application software to easily manage scanned documents.

Designed to deliver all your document imaging needs.

PERSONAL SCANNERS

Ideal for small businesses or those with a home business, these models offer the features you need to get the job done right.

WorkForce GT-1500

WORKGROUP SCANNERS

Ideal for busy workgroups, these scanners are the perfect choice for small- to medium-size businesses, or a single department within a larger organization.

GT-2500

WorkForce Pro GT-S50

Innovative LED and lamp technologies

Enjoy more efficient operation with ReadyScan™ — an innovative LED technology, exclusively from Epson, that facilitates fast scanning speeds with no warmup time. This earth-friendly LED technology featured on various Epson scanners does not include mercury. And, it offers lower power consumption.

Xenon cold cathode lamps, included on other Epson models, also offer fast scan speeds. These ultra bright lamps enable the scanner to achieve optimum brightness without any warmup time. The scanner is ready in an instant, so you don't have to wait to scan critical documents.

Epson imaging technologies

A world leader in digital imaging, Epson has been developing innovative imaging technologies over the past 30 years. As a result, our scanner drivers offer unique features that ensure the best possible image quality, regardless of the condition of the originals. Most of our scanner drivers include the following advanced image processing features: Text Enhancement, Auto Area Segmentation, Color Dropout, Color Enhancement, Threshold Control, Automatic De-skew and Punch Hole Removal.

Convenient compatibility

In order to fit into any document management environment, Epson scanners offer easy integration with key document management standards, plus compatibility with critical software applications, including TWAIN and ISIS drivers.

Superior service and support

Each Epson scanner is backed by exceptional service and support. All scanners include a one-year warranty. And, extended warranties are available, as is an overnight product exchange program.

Environmentally conscious

Better Products for a Better Future™

At Epson, we know that planning for the future requires a strong commitment to the environment. That is why we strive to create innovative products that are reliable, recyclable, and energy efficient. Better products that use fewer resources help ensure a better future for us all.

DEPARTMENTAL SCANNERS

Designed for medium- to large-size businesses, these scanners offer high-end features for fast-paced, high-volume environments.

GT-2500 Plus

WorkForce Pro GT-S80

LARGE-FORMAT SCANNERS

Built to accommodate large-size documents, these scanners are ideal for businesses that need to scan ledger sheets, A3-size documents and more.
