- Whether you submit your jobs to our single queue from your desktop PC or mobile device, you can review, select job settings, print or delete them from any networked printer.

CONTENT SECURITY AND PRINT RULES WORKFLOWS

- Unique workflows provide high levels of control and additional security measures.
- Print rules help take back control of your printers to reduce print volume and reduce costs by incorporating print rules to restrict access to features and devices.
- The most security-minded businesses and governments choose Xerox. We offer a comprehensive approach to print security that includes a powerful mix of built-in features and services that mitigate risk through a vigorous focus to prevent unauthorized access, detect suspect or malicious behavior, and protect data and documents.

YOUR CHOICE. YOUR WAY.

- Xerox® Workplace Suite (on-site, your server). This is the ideal choice for those who need productivity for mobile devices and workers, but have additional requirements for data control.
- Xerox® Workplace Cloud (simple setup, cloud administration). This is the ideal choice for organizations with limited access to IT support, companies with more than one network or looking to reduce their infrastructure.
